Rapiscan Systems
3232 West El Segundo Boulevard
Hawthorne, CA 90250

Dear Security Professional,

We at Rapiscan Systems are very pleased to announce that we are the first company in the industry to receive SAFETY Act certification for its entire line of checkpoint products; including our product line of 500/600 X-ray Series Baggage and Parcel Inspection systems, Meteor Metal Detection and Secure 1000 People Screening systems, and all related repair services. The Support Anti-Terrorism By Fostering Effective Technology (SAFETY) Act certification is an elite designation by the U.S. Department of Homeland Security indicating that covered products meet exacting standards for quality and effectiveness and that they are effective anti-terrorism technologies. We invite you to look for Rapiscan Systems products on the SAFETY Act's approved product list at www.SafetyAct.gov.

Our commitment to securing our nation's citizens and interests – both home and abroad – remains steadfast. With our SAFETY Act certifications, we can now extend to our customers the assurance that, if a terrorism act occurs, the potentially unlimited product liability exposure that they could face would be eliminated. Further, we anticipate that future government procurements will require the use of SAFETY Act approved products and services – allowing our customers to be ahead of the curve for those programs and initiatives.

To find out more about how Rapiscan Systems can help your company, please visit our website at www.RapiscanSystems.com

Sincerely,

Ajay Mehra
President, Rapiscan Systems
